The Science of Skin Re•Architecture

20 BILLION
EXOSOMES

20 FUNCTIONAL
GROWTH FACTORS

AMPLEX PLUS
TECHNOLOGY

PURASOMES' UNIQUE AND MULTI-PATENTED FORMULATION WORKS BY ELEVATING THE HUMAN BODY'S NATURAL HEALING RESPONSE. IT CAN EFFECTIVELY RESET CELLULAR ACTIVITY AND ENHANCE REGENERATION, LEADING TO OPTIMAL FUNCTION AND AN INCREASE IN THE PRODUCTION OF COLLAGEN.

PURASOMES STIMULATES AND AMPLIFIES FIBROBLAST FUNCTION WITHIN THE SKIN, WHICH IN TURN INCREASES COLLAGEN PRODUCTION TO RESULT IN IMPROVED SKIN LUMINOSITY, THE REDUCTION OF FINE LINES AND WRINKLES, AND INCREASED HYDRATION AND CREATE THE IDEAL ENVIRONMENT TO PREVENT HAIR LOSS AND PROMOTE HAIR GROWTH.

BY COMBINING THIS ADVANCED FORMULATION WITH A SEAMLESS DELIVERY SYSTEM OF MICRONEEDLING TREATMENTS, PURASOMES WORKS TO PROGRESS CELL REGENERATION TO THE LEVEL OF MAXIMUM PERFORMANCE IN SKIN AND HAIR BY STIMULATING FIBROBLAST FUNCTION AND THUS INCREASING COLLAGEN PRODUCTION.

The Science of Skin Re•Architecture

PURASOMES NC 150+ NUTRI COMPLEX

restructures mature, distressed and UV damaged skin through a powerful cellular reprogramming. A potent formulation with enhanced actives penetration was specifically designed to repair the deepest layers of the skin and create a long-lasting resilient framework, supporting skin firmness, density and elasticity via increased collagen formation and cells regeneration.

PURASOMES SGC 100+ SKIN GLOW COMPLEX

intricate formulation, synergistically works together to rejuvenate and enhance the skin's complexion.

Infused with stem cells from pomegranates harvested during optimal ripening stages to harness their pigmentati on controlling properties and antioxidant production, the formula achieves its peak brightening potential.

PURASOMES HSC 50+ HAIR & SCALP COMPLEX

has been developed to create optimal conditions for hair regrowth. It targets hair follicles with ultraprecision to prevent hair loss, resets the hair bulb's epigenetics, recharges follicles and restores normal hair growth cycle. It works on both, scalp and hair, remodelling microenvironment and promoting healthier scalp and thicker and stronger hair.
